

POTOMAC

GIPS REPORT 2026

Potomac Fund Management, Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Potomac Fund Management, Inc. has been independently verified for the periods January 1, 2000 through March 31, 2026. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis.

The Guardian Composite has been examined for the period January 1, 2000 through March 31, 2026. The Navigrowth Composite has been examined for the period January 1, 2000 through March 31, 2026. The Income Plus Composite has been examined for the period January 1, 2009 through March 31, 2026. The Bull Bear Composite has been examined for the period June 1, 2002 through March 31, 2026. The Focused Growth Composite has been examined for the period July 1, 2015 through March 31, 2026. The verification and performance examination reports are available upon request.

Potomac Fund Management, Inc. is an independent registered investment adviser. The firm maintains a complete list and description of composites, which is available upon request.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Beginning January 1, 2000, composite policy requires the temporary removal of any portfolio incurring a client initiated significant cash inflow or outflow of at least 10% of portfolio assets. The temporary removal of such an account occurs at the beginning of the month in which the significant cash flow occurs, and the account re-enters the composite the month after the cash flow. Additional information regarding the treatment of significant cash flows is available upon request. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Net of fee returns are calculated using a model fee of 2.5%. The model fee is the highest investment management fee that may be or has been charged for this composite. The annual model management fee is applied on a monthly basis, by deducting 1/12th of the model fee from the monthly gross returns. The annual composite dispersion presented is an equal-weighted standard deviation calculated for the accounts in the composite the entire year, presented gross of fees. The 3-Year Standard Deviation represents the annualized standard deviation of actual gross composite and benchmark returns, using the rolling 36 months ended each year-end. Additional information regarding the policies for valuing portfolios, calculating performance, and preparing GIPS Reports are available upon request.

The current fee schedule is comprised of three parts: The Platform Fee (0-40bps), the Client Advisor/Solicitor Fee (0-150bps), and a Strategy Fee (0-50bps). Actual investment advisory fees incurred by clients may vary.

GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

*Partial year of performance.

Guardian Composite contains fully discretionary fee-paying accounts invested in the Guardian investment strategy Guardian is a tactical 'growth and income' strategy with the goal of conservatively participating in both equity and income markets, while avoiding catastrophic bear market losses. The strategy will rotate among a suite of affiliated tactical mutual funds overweighting positions that focus on balanced and conservative equity growth. The underlying funds utilize a combination of dynamic asset allocation and mechanical system trading. Additionally, they employ risk management techniques including the use of inverse and cash positions during adverse market conditions; cash positions could at times be 100%. For comparison purposes the composite is measured against a benchmark comprised of 35% S&P 500 TR and 65% Bloomberg Barclays U.S. Aggregate TR, rebalanced monthly. The Guardian Composite was created and inception 01/01/2000.

Focused Growth Composite contains fully discretionary fee-paying and non fee-paying accounts invested in the Focused Growth investment strategy. Focused growth is a tactical 'moderate growth' strategy that invests in mutual funds and ETFs. The strategy is highly concentrated and invests in a single S&P 500 Index fund when opportunities for growth appear to be strong. During a higher risk environment or the potential for a significant downturn, the strategy will move the portfolio to a money market or low volatility fund to minimize exposure to catastrophic losses. The decision to invest in the market is based on the evaluation of technical market indicators. For comparison purposes the composite is measured against 35% S&P 500 TR and 65% Bloomberg Barclays U.S. Aggregate TR, rebalanced monthly. The Focused Growth Composite was created and inception 07/01/2015.
